

## EXPERIENCE

Our cleaners are not only experienced; they also have all the necessary personal protective equipment or PPE to ensure compliance with standard health and safety protocols.

We also have decades of experience in services related to deep cleaning, covering areas such as carpet cleaning, mould removal, floor polishing, window cleaning, and environmental clean-up.

We cover your stringent cleaning requirements by using the latest equipment and technology, following H&S and environmental standards with regards to cleaning products, and conforming to the Ministry of Health directives on preventive cleaning.
